Skills

Next.js / React / TypeScript
Astro / Alpine.js / Vitest
Tailwind CSS / CSS / SCSS
Figma / Adobe / Affinity

Awards

Best Thesis APDC 2025
An accessibility-focused system translating environments into sound to support autonomous navigation for visually impaired users.

Languages

English [C1]
German [B2]
Spanish [Native]
Portuguese [C1]

Soft Skills

Problem-solving
Adaptability
Taking initiative
Attention to detail
Communication

EXPERIENCE

Frontend developer | abss interactive | Vienna, Austria 2025 - Current
Frontend Developer with experience building digital products using React and Next.js. Focused on delivering accessible and performant web applications that are scalable and maintainable. I care about understanding systems end-to-end and applying solid engineering practices to build reliable software.

EDUCATION

Master's in Interactive Multimedia | University of Porto 2022 - 2024
Specialized in frontend development and UX design within HCI, focusing on research-driven, agile projects. Additionally, experienced in user-centered design, prototyping, generative art, sound design, VR, and interactive multimedia.

Photography and Video Editing | 35 MM School 2020 - 2022
Theory and foundation visual composition and hands-on experience with video and photo editing, using Photoshop, Premiere, After Effects, and DaVinci Resolve.

Bachelor's in Information Science | University of Granada 2018 - 2022
Studies in web information and protocols, information architecture, metadata, and information retrieval.

PROJECTS AND PUBLICATIONS

Research Paper | SoniHED Conference 2025 | Stockholm, Sweden 2024 – 2025
Sonification method using auditory cues to encode semantic and spatial properties of objects to navigation for blind and visually impaired individuals and tested in a Virtual Reality environment. Presented at an international conference, contributing to accessible design and human-computer interaction research field.

Open Minds: Creative Innovation Lab | MTF Labs | Umea, Sweden Oct 2023
Collaborated on an EU-funded accessibility project, prototyping solutions in teams of 6 using a physical computing toolkit and a design thinking methodology. Designed an application in Figma and a physical prototype during a 5-day sprint.

Project Lab UP | University of Porto Feb 2023 – May 2023
Collaborated with 3 master's programs at the University of Porto on a project for a local hospital treating Type 1 diabetes patients. Worked as part of a 12-person team, specifically in the UX/UI design team. Helped design the interface, conduct market and patient research, and define the MVP. Other teams members included project managers and informatics students.

VOLUNTEERING

Staff [Volunteering] | UXcon Vienna Sep 2024
Gained insights into cutting-edge UX trends and best practices and networked with industry professionals. Assisted with setting up the event and providing information to attendees.

Graphic Designer [Volunteering] | Erasmus Student Network 2021 -2023
Designed graphics and edited videos to promote activities and provide information over 6 months, built the local archive for 2021-22, and represented my section at 2 major conferences.
